

I wish I had... Challenge!

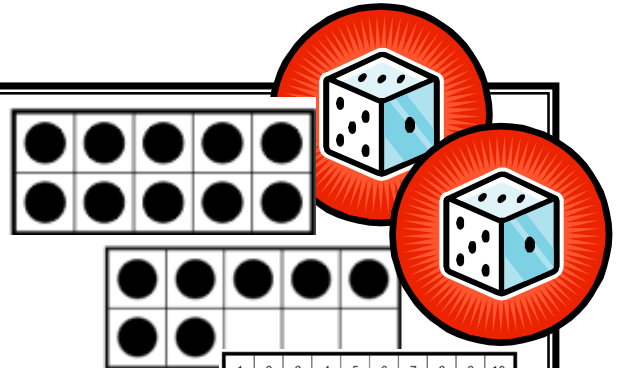

Play in pairs or threes

You will need:

- ten frame cards (blues and pinks!)
- two dice (one white, one coloured)
- Hundreds chart for each player
- Overhead pen for each player

How to Play:

- Roll the dice to get your target number.
 - The coloured die is the number of tens.
 - The white die is the number of ones.
 - If you roll a 5 on the coloured die and a 4 on the white die, then your target number is 54, for both players.
- The target number is the number “**I wish I had...**”
- Circle the target number on the hundreds chart.
- Each person pulls **3 (or more)** ten-frame cards out of their baggie.
- Each person says how many they have.
 - “One blue card. That’s ten. One pink 7, and one pink 6. That’s 13 and ten more is 23.”
- Now your job is to figure out how much you need to make the target number.
 - “I have 23. **I wish I had** 54... I need 1 more to make 24, then 30 more to make 54. That’s 31 all together.”
- Record your thinking on your hundreds chart. Circle your starting number on the hundreds chart.
- How did you get to the target number?
- Is there another way?
- Compare your thinking to your partner’s.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
