

# I wish I had...

## Play in pairs or threes

You will need:

- ten frame cards (blues and pinks!)
- two dice (one white, one coloured)
- Number lines sheet
- Overhead pen

Number Lines

---

---

---

---

### How to Play:

- Roll the dice to get your target number.
  - The coloured die is the number of tens.
  - The white die is the number of ones.
    - If you roll a 3 on the coloured die and a 5 on the white die, then your target number is 35, for both players.
- The target number is the number “**I wish I had...**”
- Each person pulls 2 ten-frame cards out of their baggie.
- Each person says how many they have.
  - “One blue card. That’s ten. One pink card. That’s a 7. I have 17.”
- Now your job is to figure out how much you need to make the target number.
  - “I have 17. **I wish I had 35...** I need 3 more to make ten, then 15 more to make 35. That’s 18 all together.”
- Record your thinking on your number line sheets. How did you get to the target number? Is there another way?
- Compare your thinking to your partner’s.
