

**you need:**

- 2 1–6 dice
- 2 small play people

# Cross over

 for 2 players**First of all**

Put your people on 18 and 20.

**When it's your turn**

Roll both dice and choose one of the numbers.

Add that to, or take it away from, the number you are on and say the answer.

If one of the next-door spaces shows that answer, move your play person there.

If you don't want to move, you don't have to.

**The end of the game**

Keep playing like this. The first player to cross the board and reach the opposite grey space wins the game.
